

# THE ELIMINATION OF THE DEPT. OF EDUCATION

A new proposal aims to **eliminate** the U.S. Department of Education, which provides critical funding and protections for students in rural communities like ours.

-  Support for children from rural counties
-  Support for children with disabilities
-  Support for College Financial Aid
-  Protections

Tell your reps to stand up for our schools and students by keeping federal education support in place! Congress can stop this.

 TAKE ACTION: MAKE A QUICK CALL TO CONGRESS  
Use the U.S. Capitol Switchboard: (202) 224-3121
